

BETTER *together*

Rediscovering Us. We believe that healthy families begin with healthy marriages. Dr. Greg and Erin Smalley believe that too! That is why we are so excited to have them join us for our Better Together Marriage Conference. Come to learn from the Smalley's and other couples how to have a marriage that you'll both love. This conference is open to all couples and is a great opportunity to experience with a friend or your small group.

● When is it? ●

February 7-8, 2020

Event Details: Number of Speaking Sessions: 6 Length of each Speaking Sessions: 60-90 minutes

Friday Night: 6:30-9pm // Saturday Morning: 8:30am - 12:30pm

● Will I need to bring anything special? ●

You will want to bring a Bible, a pen, and a notebook with you. When you check-in on Friday night, you will receive a conference booklet and materials for the weekend from our speakers. Also, there will be a resource table available to purchase additional resources from our speakers. Light snacks and refreshments will be provided during the sessions.

● Is there childcare available? ●

Unfortunately, there will not be. With the length of the event on Friday night and Saturday morning, we want your little ones to have the best environment possible to have fun and stick to their regular schedules for rest and meals. When your little ones are safe and comfy in their settings, it will help you and your spouse to be able to get the most out of the conference.

● Can I come without my spouse? ●

Yes. We think that attending with your spouse is the best strategy to get the most out of the weekend. But if your spouse isn't able to make it, come along! It will be an enriching and encouraging time.

● Can I come with my fiancée? ●

Yes, definitely. The conference would be a great experience to have as you are preparing for marriage! Is there an older married couple that you and your fiancée could attend with? Having a mentoring couple to help support and follow-up with you and your fiancée would make the weekend even more powerful.
